NEW SERVICES TUNNEL TO CAUSE UTILITIES INTERRUPTION

Construction of a new services tunnel in the northwest portion of the campus will cause some interruption of building services this fall.

The new tunnel will be the first phase of a link between existing portions of the tunnel, connecting new buildings such as Mechanical Engineering (Engineering Centre II) and the proposed Agriculture Building. The first phase of the tunnel, under construction September through January and costing \$425,000, will run adjacent to the Nuclear Research Centre and Temporary Laboratory "A", which houses Industrial Arts.

Building services will be interrupted for short periods of time probably in October and November. There will be no interruption of high pressure steam, so none of the buildings will be without heating.

The domestic water supply will be cut off for a short period, likely between 8 p.m. and 6 a.m., in the following: Tory Building, Agriculture, Physics, Chemistry, Biological Sciences, Nuclear Research Centre, Industrial Arts, and the Engineering Centre.

Chilled water, affecting air conditioning and laboratory work, will be interrupted for a few days in the following: Tory Building, Agriculture, Physics, Chemistry, Biological Sciences, Nuclear Research Centre, Industrial Arts, the Faculty Club, the Engineering Centre, the General Services Building, Printing Services Building, Physical Education Centre, Students' Union Building, and University Hall.

Natural gas service may be interrupted for Industrial Arts, the Faculty Club, and the Ring Houses only.

Compressed air from the central system, used for laboratory work and the controls for air conditioning and heating, will be interrupted in some buildings. Only the General Services Building, which lacks its own compressor, will be affected.

Electrical power will not be cut off.

More accurate timing of cut-offs will be available later and seven days notice will be given where possible. The duration of the interruptions will be kept at a minimum.

Any specific problems that may be foreseen should be referred to DENNIS DEAGLE in the Campus Development Office at 432-4966 or A. PALLAS in the Construction Office at 432-5211.

VOLUME EIGHT, NUMBER NINE

JOHN PERCY SACKVILLE 1879-1971

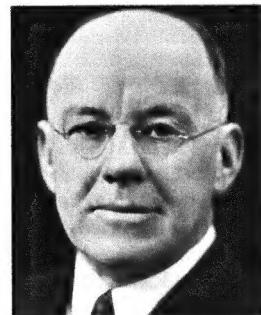

JOHN PERCY SACKVILLE, Professor Emeritus of Animal Science, died Sunday, August 15.

Professor Sackville, originally from

Northumberland County in Ontario, served as Professor and Head of Animal Husbandry (and later Animal Science) at this University from 1922 until his retirement in 1947. Previously he had been a Lecturer and Associate Professor at the Ontario Agricultural College, and Livestock Editor for *The Country Guide* in Winnipeg. He was a graduate of the Ontario Agricultural College and of Iowa State College.

Throughout his career Professor Sackville served on many provincial and national committees and organizations concerned with the livestock industry. For several years after his retirement he was Secretary and Treasurer of the Canadian Aberdeen Angus Association.

In 1947 he was made a Fellow of the Agricultural Institute of Canada.

NOTICES

LUTHERAN EDUCATION COURSES

W. H. FREITAG of the Lutheran Theological Seminary, University of Saskatchewan, will be guest lecturer at two courses sponsored by the Lutheran Education Institute.

The graduate course will be "Gospels in Study and Preaching," and the undergraduate course will be "Understanding the New Testament." Classes will begin Friday, September 17. For information and applications, telephone W. E. RANDALL, 432-4759.

COURSE ON ENVIRONMENT

The executive of the Graduate Students' Association has agreed to the proposal of the University's Interdisciplinary Committee for Environmental Quality that a course on environmental problems be presented in the fall jointly by faculty and graduate students.

It is intended to provide this course in the evening under the auspices of the Department of Extension (G. H. WRIGHT).

The course will be open to all University students, as well as to the public. The present plan calls for the course to begin in November, with a series of lectures and discussions on important areas such as energy cycles, resources, biological cycles, population, steady-state economics, sources of pollution, measurement of pollution, etc. About January the participants will break up into groups of five to eight to identify, analyze, and take action regarding environmental problems.

Graduate students and faculty will be needed as lecturers, resource personnel and, in some cases, problem-group leaders. To further formulate plans for this course, a meeting of graduate students and faculty who would be interested in participating will be held Wednesday, September 8 at 8 p.m. in the Meditation Room of the Students' Union Building.

For further information or comment, please write or telephone E. E. DANIEL, Professor and Chairman of Pharmacology, Department of Pharmacology, 432-3576.

HOUSING GUIDE

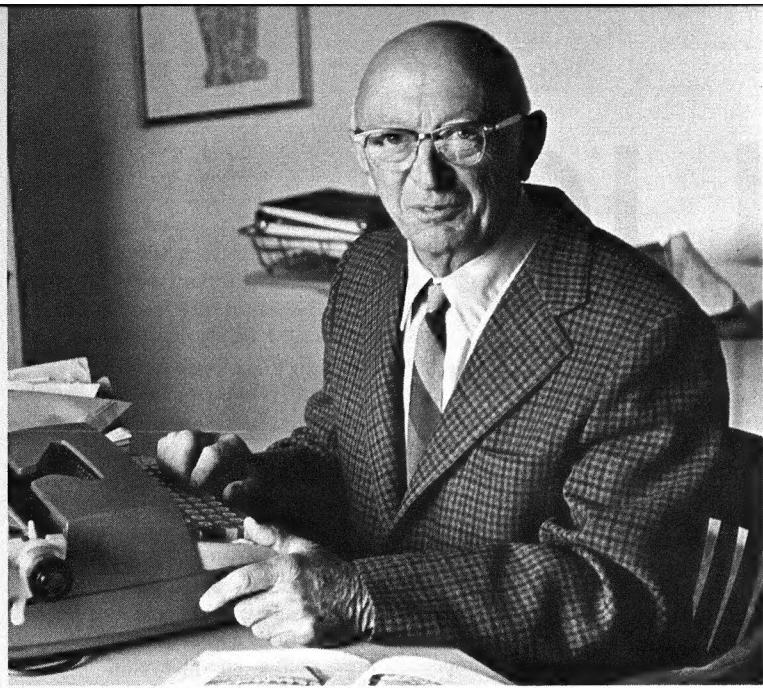

The Students' Union has produced a Housing Guide to aid students in their attempts to acquire housing. The booklet, researched and compiled by RAV SOLANKI, lists on-campus accommodation, sources of off-campus accommodation information, tips on what to look for in housing, tenants' rights, information on tenants' associations, and bus routes.

Housing Guide 1971-72 is available upon request at the Information Desk in SUB and the Housing and Food Services office in Lister Hall.

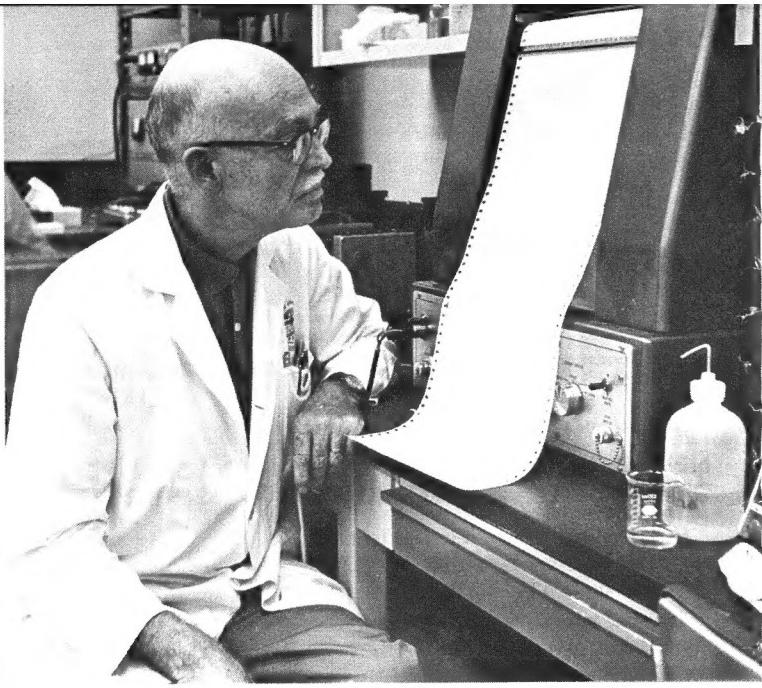

PEOPLE

■ JOHN J. BERGEN, Associate Professor of Educational Administration, completed his third session as director of the Alberta Leadership Course for School Principals. Sixty-one persons, including three from the Territories, attended the 16th annual Leadership Course, which was held at the Alberta School for the Deaf during the first two weeks of July.

RETIREMENTS

Nine members of the academic staff have been appointed Professors Emeriti by the Board of Governors of The University of Alberta.

THOMAS BLENCH, Professor of Civil Engineering, obtained his Bachelor of Science degree in Civil Engineering and Mechanics at the University of Glasgow in 1927. He was associated with the Indian Service of Engineers with Punjab Irrigation from 1927 to 1948 and was Engineer-in-Chief (India) on Air Force Works from 1942 to 1945.

He joined the University staff in 1948 and received his Doctor of Science degree in 1959. Dr. Brench's *Mobile-Bed Fluviology* (2nd revised edition) was published by The

University of Alberta Press in 1969.

H. B. COLLIER, Professor of Pathology, has been associated with the University since 1949. He received most of his education in Toronto and graduated from the University of Toronto with a PhD in Biochemistry in 1930.

He spent seven years as Head of the Department of Biochemistry at West China University and 12 years in various positions at Canadian universities. Dr. Collier was appointed Professor and Head of the Department of Biochemistry at The University of Alberta in 1949. He was made a Fellow of the Royal Society of Canada in 1954, and in 1964 he was appointed to his present position.

ROBERT M. HARDY, Dean of Engineering, received his Bachelor of Science degree from

the University of Manitoba in 1929. He obtained his Master of Science degree at McGill University in 1930 and received an Honorary Doctor of Science degree from the University of Manitoba in 1957. He joined the staff at The University of Alberta in 1930 and was appointed Professor and Head of the Department of Civil Engineering and Dean of the Faculty in 1947.

Dr. Hardy became a Fellow of the Royal Society of Canada in 1958 and a Fellow of the Engineering Institute of Canada in 1965.

K. A. LESINS, Professor of Genetics, has been a member of the University staff since 1962. He received his Bachelor of Agriculture degree in Latvia and his LicAgr in Sweden. He obtained his Doctor of Science degree from The University of Alberta and was appointed professor in 1966.

A. G. McCalla

H. T. Sparby

Robert M. Hardy

K. A. Lesins

E. O. LILGE, Professor and Chairman of the Department of Mining and Metallurgy, received his Bachelor of Science and Master of Science degrees from The University of Alberta. He joined the University staff in 1936 and was appointed to his present position in 1954.

A. G. MC CALLA, Dean of Graduate Studies, has been associated with the University for 31 years. He received his Bachelor of Science degree in Agriculture from The University of Alberta in 1929 and his Master of Science degree in Biochemistry two years later. He obtained his PhD in Plant Physiology from the University of California in 1933.

Dr. McCalla is a Fellow of the Agricultural Institute of Canada and the Royal Society of Canada. He came to the

University as a sessional lecturer in 1940 and was appointed Professor of Plant Biochemistry and Dean of Graduate Studies in 1957.

W. R. SALT, Professor of Anatomy, obtained his Bachelor of Science and Master of Science degrees at The University of Alberta. He was Professor of Zoology at Mount Royal College in Calgary from 1945 to 1948 and joined the University staff in 1949. He was appointed to his present position in 1958.

H. T. SPARBY, Professor of Educational Administration since 1956, became a staff member at the University in 1946. He received his Bachelor of Science and Master of Science degrees here and his PhD at Stanford University.

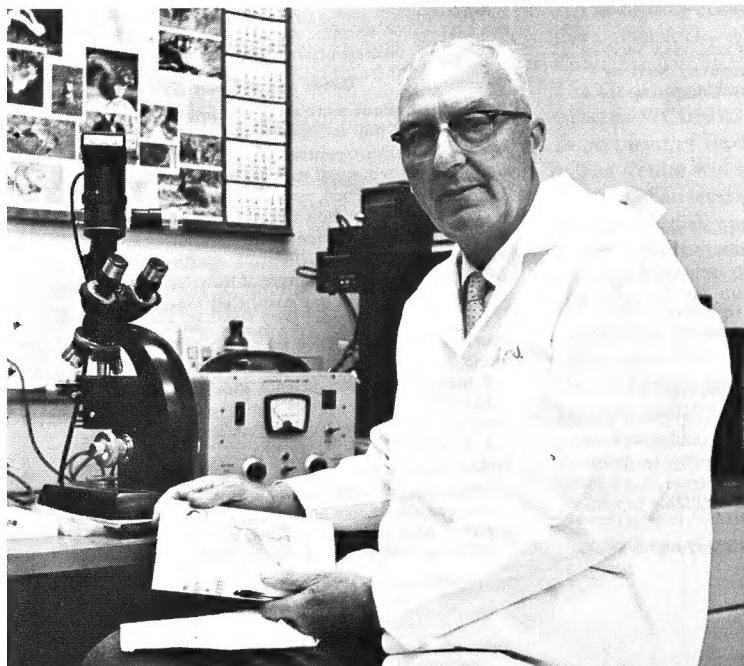

Dr. Sparby served as Provost of The University of Alberta from 1947 to 1953 and

continued during that time as a lecturer in the Faculty of Education. He has been on leave from the University since 1969 to serve as Curriculum Adviser of The University of Alberta-Thailand Comprehensive School Project.

JULES TUBA, Professor of Dentistry, obtained his Bachelor of Science degree in Chemistry and his Master of Science degree in Biochemistry at the University of Saskatchewan. He received his PhD from the University of Toronto in 1941.

Dr. Tuba came to The University of Alberta in 1942 as a lecturer and was appointed to his present position in 1962. He is a member of the Edmonton and District Dental Society, the International Association for Dental Research, and the Canadian Federation of Biological Societies.

W. R. Salt

Jules Tuba

(From page one) Extension, has received Rome's Centennial Medal in recognition of his exhibition of High Frequency Color Kinetic Paintings which opened Rome's centennial celebrations in 1970.

THIS WEEK AND NEXT

SUB ART GALLERY

"Posters From 3 Wars," a National Gallery exhibit, will be on display through 10 September at the SUB Art Gallery. The posters are from World War I, World War II, and the Spanish Civil War. A small selection of recent liberation posters and films done during and after World War II and the Spanish Civil War also will be shown. Included in the exhibit are posters from Russia, the United States, Canada, Britain, Spain, and Cuba. The Gallery is open weekdays from 9 a.m. to 4:30 p.m. during August. In September it will be open weekdays from 10 a.m. to 9:30 p.m., Saturdays from 1 to 9 p.m. and Sundays from 1 to 5 p.m.

PHYSICS IN MEDICINE

A seminar in biomedical engineering will be held Thursday, September 9 at the University. Interested persons are asked to contact T. R. OVERTON, 432-6344 or 432-6339, or R. E. SNYDER, 432-4123, before August 31.

FACULTY CLUB

Special events at the Faculty Club include the following. For reservations, telephone 432-4231.

*Friday, August 27. Downstairs. TGIF—
Pizza, \$1.75. Upstairs. Gourmet Special, Zuppa
di Pesce, Italy Petti de Pollo alla Bolognese,
\$13 for two. Regular menu.*

Saturday, August 28. Downstairs. Delmonico
